

Aim to achieve at least 20 points during the term. This should take approximately 10 hours excluding reading, spelling and Maths work. You must complete the 3 star tasks. 1 task should be completed each week in your learning log. **Please return your learning log to school every Monday.**

Colour in or cross off each task as you finish it. Remember to apply our learning powers and edit your work to make sure it is the best you can do. Check your spelling, punctuation, grammar and presentation.

Don't forget to read daily and sign your reading record. PRACTISE ON NUMBOTS, PHONICS PLAY AND PURPLEMASH.

Points		A	B	C	D	E
		Year 1	5	Design a bingo board with different phonics sound on that we can play as a class.	Research what people wore at the seaside 100 years ago. What is the same and what is different? Ask your parents and grandparents what people wore?	Write an invitation to a party to invite a character from a book or film. Explain what will happen at the party, what will they eat, where is it happening.
4	Go on a shape treasure hunt around your house. Sort them based on the number of vertices, sides, can they roll and so on. Be as imaginative as you can.		Have a look at different buildings, what materials are they made from? What shapes have they used?  Draw some different buildings and label the materials used. Why do you think these materials were used?	Make a matching or sorting game with words which have split digraphs in. (eg cake, spoke, like,)	Design a mythical creature, draw it and write sentences to describe it. Maybe it will have scales, wings and a giraffe's neck. Don't forget capital letters, finger spaces and full stops!	Compare different heights and lengths. You could use your toys, your family's shoes or measure the height of your siblings,
3	See if you can notice the first signs of spring...when it arrives! How can you record these? Maybe in photos, a weather report, a description of nature.		Think of some silly sentences about materials. Eg My shoes are made of bricks. My windows are made of paper.	Practise number bonds up to 20, can you represent them in a number bond poster or game to help you remember them?	Draw a map of a seaside town, can you label different features? Eg: coastline, cliffs, pier, lighthouse. Which are human features and which are physical? 	Choose 3 tricky words and use them in 3 sentences. Don't forget capital letters, finger spaces and full stops.
2	Act out your favourite book for your family. Can you use different voices and expression for the characters?		Experiment at home with objects that float and sink. Maybe do this at bath time. Can you predict which ones sink? How do you know?	Make a model of a beach, what could you include?	Make a healthy meal at home and explain how you made it.	Learn a poem or song about the seaside.
1	Try mixing different colours in pain, what do you notice? Can you use the primary colours to make colour number sentences? Eg red + yellow = ?		Read a book in a strange place! Up a tree, under your bed, with your pet! Take a photo or draw a picture to tell me about it.	Draw a wintery painting, what colours will you use?	Choose a piece of music that you enjoy and create a dance routine.	Make a valentines card for a special friend or family member.
